Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/589,809	Applicant(s) JO, JI -WON	
	Examiner David J. Walczak	Art Unit 3751	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Abstract

The abstract of the disclosure is objected to because phrases that can be implied, such as "Disclosed herein" (see line 1) should not be present therein. Further, the abstract should be submitted on a separate sheet with no other verbiage thereon. Correction is required. See MPEP § 608.01(b).

Drawings

The drawings are objected to because:

The drawing sheets currently have WO and PCT numbers thereon wherein such references should not be present on the drawing sheets;

The various figures of Figure 1 should be separately labeled "Fig. 1A", "Fig. 1B, etc. (see also Figures 6 and 7). Further, the "Brief Description of the Drawings" section of the specification should separately describe each of the figures (Fig. 1a, Fig 1b, etc.) separately;

Any figure that includes views that are separated (see Figures 1b, 3, 5 and 7c) should have some marking (brackets, dashed lines, etc) that connects the views to clarify that these views are part of the same figure;

Figures 7a – 7c should be labeled "Prior Art"; and

Lastly, the Applicant should review all of the drawings to ensure that the various reference characters are properly directed to the proper elements, i.e., on the right side

view of Figure 3, the reference character 2f at the bottom thereof should be 1a1 (see the upper portion of the left side view of Figure 3).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The disclosure is objected to because of the following informalities:

On line 5 of paragraph 40, it appears that “slides the joint 2a” should be --slides along the joint 2a-- since joint 2a does not move during the operation of the device; and

On line 8 of paragraph 46, it appears that “moves the joint 2a” should be --moves along the joint 2a-- since joint 2a does not move during the operation of the device.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 6-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regard to claim 6, on line 9, it appears that "spring" should be inserted after "first".

In regard to claims 10, 12, 15 and 17, an antecedent basis for “the brush means **installed at a predetermined portion of the brush holder**” has not been defined.

Allowable Subject Matter

Claims 6-17 would be allowable if rewritten or amended to overcome the rejection under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Kurokawa and Iizuka et al. references are cited for disclosing other pertinent structures.
